Erasmus+

- *University of Novi Sad*

*In total have 8 Courses in Netchem project
Which is divided in 24 materials*

- ❖ **14 of the materials are in MSc program and,**
- ❖ **12 other in PhD courses**

❖ *University of Novi Sad*

- ❖ *Out of 6 MSc courses that will be modernized in 2018/19 4 will be delivered (courses no 1-4). It will be possible to include course no 2 since it is in summer semester and teacher in charge will work on development of material during winter semester. All four courses will have remote component (at least type 2). related to accreditation, all those courses are running except course 2 that is actually running unde the title "Methodology of instrumental analysis of air" and new title written above is approved by the Educational Board and submitted for accreditation but since the process has been stopped at the state level, the title aproval waits. Two additional courses will be developed, they are also already approved by Educational Board and they were included in accreditation documentation but similarly, process has been stopped and it is not clear when it will be continued. At least one of those courses will include remote component (type 3). (Dates of submission and stop of accreditation I will ask and send you later)*
- ❖ *Out of 4 PhD courses that will be modernized in 2018/19 3 will be offered and 2 of them with remote component (type 2 and 3).*
