

Amendment to Quality Control and Monitoring Manual

- The 2nd level of control is elaborated by IQAT and EQAT teams.
- Communication within QA teams will be performed in following way: the president of QA team will send material by email to its members. Authors should correct their materials according to comments of reviewers in a timely fashion.
- In case that members of QA team do not reply with their remarks, objections or suggestions, it will be considered that they agree with delivered materials and president of QA team can sign AnnexQ8.
- During regular NETCHEM meetings the reports of IQAT and EQAT teams will be periodically presented.
- The final level of quality control (Steering Committee) is elaborated by SC teams.
- Communication within SC team will be performed in following way: the president of SC team will send material by email to its members. Authors should correct their materials according to comments of reviewers in a timely fashion.
- In case that members of SC team do not reply with their remarks, objections or suggestions, it will be considered that they agree with delivered materials and president of SC team can sign AnnexQ8.
- During regular NETCHEM meetings the reports of SC team will be periodically presented.

On Behalf of all Project Consortium
