LIST OF ABBREVIATIONS

Purpose, objectives and elements of meeting

The Open day was held at Department of Department of Environmental Engineering, Faculty of Technical Sciences, University of Novi Sad, on 05th of June 2019.

The purpose and objectives of the open day were to inform the students (3rd and 4th year) about the NETCHEM platform and the innovations in teaching methodology within selected subjects on master and PhD study programmes of environmental engineering. The main objective of Open day was to present the modernization of education materials which were prepared within the project.

Assistant professor Dr. Ivana Mihajlovic presented modernization of educational materials developed at study programs of master and doctoral academic studies - instrumental distance exercises, remote access to HPLC and GCMS devices.

Assistant professor Dr Maja Petrovic presented the implementation of new teaching approaches in the subject of Monitoring and management of systems - video material and remote access to the laboratory and the results of student survey.

Dr. Jelena Radonic associated professor and Dr. Maja Turk Sekulic associated professor, presented the modernization of educational materials for the subject Analysis of the environmental protection system.

LIST OF PARTICIPANTS

Prof. Dr. Jelena Radonic

Prof. Dr. Maja Turk Sekulic

Doc. Dr. Ivana Mihajlovic

Doc. Dr. Maja Petrovic

Nikola Maoduš

Students of 3rd year (Attendance list)

Students of 4th year (Attendance list)

Date of the 1st day

/

Date of the 2nd day

CONCLUSION

Two Open day sessions were organized on the Department of environmental engineering and occupational safety and health on 5th of June 2019.

First Open day session was organized for students of 3rd year of the of Environmental engineering study program.

During the first session Prof. Dr Radonić, Prof. Dr. Turk Sekulić, Doc. Dr. Ivana Mihajlović and Doc. Dr. Maja Petrović presented the modernized teaching courses within Master studies with focus on the innovations regarding the lesson presentations and communication between teachers, assistants and students. 30 students participated in this event and all of them showed the great interest in the presented materials and expressed they willingness to hear what they can expect in higher years of studies.

During the second session Prof. Dr Radonić, Prof. Dr. Turk Sekulić, Doc. Dr. Ivana Mihajlović and Doc. Dr. Maja Petrović presented the modernized teaching courses within Master and PhD studies with focus on the innovations regarding the lesson presentations, communication between teachers, assistants and students as well as the evaluation report of students who were involved in the first year of application of modernized courses. 16 students participated in this event and almost all of them showed the great interest in the presented materials and they expressed their pleasure in being introduced to the structure of individual subjects at the master and doctoral studies with a commentary that it would be useful to be introduced to the other courses and that it would be great to take in consideration to implement the innovations in other subjects as well.
